## Sick Route

We have no members out.

Thank you for your support

Kim Barber

Sick Route Chairwoman

916-889-6529

Kimberlynn1221@gmail.com

The sick route policy is at [www.cvipssa.com/sickroute.html](http://www.cvipssa.com/sickroute.html)

## Membership

**Please welcome our newest members:**

- Glen Hunton - Hunton Pool Service, EDH
- Jimmy Stevens - Pure Water Pools

For membership information please contact:

Mike Assenza

Membership Chairman

916-837-8525

[mike@rivercitypoolcare.com](mailto:mike@rivercitypoolcare.com)

## Capital Valley IPSSA Resource Manual

We are updating our CVIPSSA resource manual. It will be available online on our [cvipssa.com](http://cvipssa.com) web site, this time it will be viewable publicly.

It is your chapter's Board of Directors desire to include members business information and, as desired for referrals, the weekly service areas and/or repair specialties.

**To be included you must return the CVIPSSA Resource Manual Request Form (previously emailed) by June 15, 2021.**

Email Marian at [Marian@Pliczka.com](mailto:Marian@Pliczka.com) with any questions.

## Looking for a Few Good Pools

I'm looking to expand my routes in a few areas:

- ◇ Roseville: General area of Oakmont HS, 3-6 pools depending on size, proximity, and service level.
- ◇ Gold River: 2-4 pools depending on size, proximity, and service level.
- ◇ Folsom: Empire Ranch area, 2-4 pools depending on size, proximity, and service level.
- ◇ EDH: Serrano, Governor's Park, and Franciscan Village areas, 2-4 pools depending on size, proximity, and service level.

Will pay reasonable rates or work them off.

Mike Assenza

River City Pool Care

916-837-8525

[Mike@rivercitypoolcare.com](mailto:Mike@rivercitypoolcare.com)

## For Sale:

- Pentair CCP320 Filter - \$610
- Pentair Rebel Sweep - \$370
- Pentair Legend (LL505G) - \$435

Call Scott Houseman, 916-638-4100

-----  
Innovative Pool Products Relay (IPP-100) \$40

Call Jack Emlay, 916-764-7852

**Thank You Chapter Supporters for the door prizes at the last chapter meeting.**

- ◇ **Pentair** - Hats and check valve
- ◇ **Hasa** - Chlorine

## Filter Cleaning Service

- ⇒ Are you behind on your filter cleanings or just tired of doing them yourself?
- ⇒ Do you wish you could hire someone to do them for you?
- ⇒ Someone experienced and insured?

Then contact Alex Assenza @ 916-798-3736, or [alexander.assenza@gmail.com](mailto:alexander.assenza@gmail.com)

\$30 per filter for cartridges. He worked with me for the first couple years of my business (River City Pool Care), and recently ventured on his own. He has been cleaning my filters, and has worked with a few other members.

## A Message from Monte...

### Exterior leaks: Where to find them and how to spot them

Exterior plumbing leaks can be found in swimming pools, spas and water features, but also in main lines, irrigation supply lines and in sprinkler systems.

If you have an exterior water leak, you may notice one or more of the following signs:

- Water meter spinning
- Water leaking over the sidewalk
- Wet spots or standing water in the yard
- Neighbors complaining about their yard flooding
- Damp areas next to the foundation

To determine what type of exterior leak may exist, American Leak Detection Sacramento suggests doing a few simple tests to narrow down the source of the leak:

1. Turn off the swimming pool auto-fill supply valve, if one exists
2. If the water meter is spinning, turn off valves one at a time to determine which system may have a leak
3. Turn off the house shut-off valve. If the meter is still spinning, then the leak may be in the main line or irrigation system.
4. Proceed to turn off the irrigation supply valve, this valve turns off the supply lines that lead to the sprinkler valves. If the meter stops moving at this point, then the leak is either in the supply line, or a sprinkler valve may have failed and is allowing water to leak past a closed valve.
5. If after turning off the house valve and the irrigation valve and the meter is still moving, then the leak is in the main water line from the water meter to the house.

Now that you know what is causing the leak, the next step is to locate it. We use electronic equipment to "listen" for the underground leak. We pressurize the system to create a sound at the broken pipe. If the leak is in the mainline or irrigation supply line, we can induce pressure into the system and electronically pinpoint the leak. Please remember that pipes after the irrigation sprinkler valves cannot be pressurized because there are sprinkler heads or drip lines in the system. For a leak to be detected in this type of system, each sprinkler head needs to first be dug up, removed, the riser Teflon taped, capped, and then pressure tested.

A Snapshot of the Upcoming

# DEPARTMENT OF ENERGY DEDICATED PURPOSE POOL PUMP (DPPP) FEDERAL ENERGY EFFICIENCY REGULATIONS

Did you know...

Pool pumps can be the #2 CONSUMPTION OF ENERGY in the house?

Home Energy Use

### What does this regulation mean for pool pumps?

Pool pumps manufactured for use in and imported for use into the U.S. after July 19, 2021, must meet new minimum efficiency standards.

### Are the new minimum efficiency standards the same for all pumps?

- No. What we typically call an **Inground pump** will be classified as self-priming. Self-priming pumps will be categorized as large and small. Each have different efficiency requirements.
  - Large Inground filter pumps (self-priming)**—These are typically 1 horsepower (HP) and greater. A variable speed pump is the only pump that will meet the minimum performance requirement based upon today's current technology.
  - Small Inground filter pumps (self-priming)**—These are typically 0.5 HP and 0.75 HP. Highly efficient single-speed or two-speed pumps should meet the minimum performance requirements. Note: The new regulations establish much higher efficiency standards. The majority of existing single-speed pumps will not meet the new minimum requirements.
- What we typically call an **aboveground pump** will be classified as non-self-priming. While less stringent than Inground pumps, they must still meet new minimum efficiency standards.
  - Aboveground filter pumps (non-self-priming)**—An energy-efficient, single-speed or two-speed pump should meet the minimum performance requirements. See above note (a) regarding the higher efficiency standards.
  - Pressure cleaner booster pumps** also have minimum performance requirements.
  - Energy-efficient, single-speed booster pumps** should meet the new efficiency requirements. See above note (a) regarding the higher efficiency standards.

### What about other pumps?

- The following pumps **do not have** minimum performance requirements:
  - Waterfall pumps (1,800rpm max)
  - Filter pumps with integrated sand and cartridge filters (e.g., small inflatable pools)
  - Rigid (permanent) and storable (inflatable) electric spa pumps (e.g., pumps for hot tubs)

SF 1.0

### How will these changes affect HP ratings?

HP ratings will be redefined so that all pumps have a Service Factor of 1.0, and the HP displayed on the pump will be the THP (also referred to as Service Factor horsepower (SFHP)). This new rating methodology will eliminate dual full-rate and up-rate labeling existing today.

### What happens when an existing single-speed pump fails after July 19, 2021? Can I replace it with another single-speed pump?

- It depends on the pump classification.
  - If the replacement is on a large self-priming pump, then the answer is no.
  - If the replacement is on a non-self-priming or a small self-priming pump, then an energy-efficient, single-speed replacement could be an option.

### Are there any exemptions?

Three-phase pumps, electric spa (hot tub) pumps and pumps greater than 2.5 HHP (approximately 5 total horsepower (THP)) do not have minimum DPPP efficiency requirements.

### Do I have to replace the installed base of existing non-compliant pumps?

No. This regulation does not require bringing all existing installed pumps into compliance. However, pump replacements made after July 19, 2021, will require a compliant model.

### If my distributor still has remaining inventory of non-compliant pumps, can I purchase and install these pumps?

Yes. There is no time limit on how long it takes to purge distribution of non-compliant products.

### What are the new terms/definitions and labeling requirements?

- WEF (Weighted Energy Factor)**—This is a measure of the pump's energy efficiency (how much water is pumped divided by how much energy it takes), similar to miles per gallon in an automobile. The higher the WEF, the more efficient the pump. Each pump must be labeled with its WEF.
- HHP (Hydraulic Horsepower)**—This is the amount of hydraulic power produced by the pump's wet-end.
- THP (Total Horsepower) or SFHP (Service Factor Horsepower)**—This is the new pump HP rating and is determined by the total HP created at the motor shaft. Each pump must be labeled with its THP.

### Does it impact residential and commercial?

Yes. Both are impacted. The regulation does not differentiate between a residential or commercial pump. It is based on the pump's physical attributes and not on the pump's application (see exemptions above).

### Still Using Tablets for Pool Sanitizing?

# Top Reasons to Switch to HASA Sani-Clor®

#### Advantage Over Tablets

- Highest Available Chlorine
- Fast Acting
- Safe to Use and Transport
- No CYA/No Calcium
- Convenient & Saves Money

Only HASA Sani-Clor® sodium hypochlorite achieves the brilliant clear blue sparkle that your customers expect.

It performs without the chemical by-product build up from tablet use that can lead to cloudy water, more chemical use and costly additional draining. Plus, HASA Sani-Clor® is widely available.

Find out how convenient it can be to convert to liquid sanitizer with our automated daily feeder. Check it out—and receive important information and exclusive offers. Visit our [Solid to Liquid](#) webpage at [HASA.com/SZL](#).

To Learn More

It's easy to **Make the Switch** from solid to liquid! Learn more at [HASA.com/SZL](#)

# THE ULTIMATE CLEAN

## INTRODUCING JANDY TRUGUARD™

The Jandy TruGuard mineral sanitizer can reduce chlorine use by up to 50% in pools. Plus, when you combine it with a salt chlorinator it creates a perfect chlorine-generating solution to keep pool water clean, clear and luxuriously soft.

# BURKETT'S

POOL PLASTERING, INC.

Specializing in Pool Remodeling

Put our experience to work for you!

More than 40,000 pools plastered  
and over 15,000 fully remodeled!

We specialize in:

- Waterfalls, Water Features and Spa Additions
- Professional Masonry and Tile
- Concrete Deck Removal and Replacement
- Pool Shallowing and Acapulco Bench Additions
- BBQ Islands, Grills, Fire Pits
- Pool and Spa Replumbing, Skimmer Replacement
- Energy Efficient Equipment and Solar Heating
- Automatic Pool Covers and Fabric Replacement
- Plumbing and Leak Repair Services

In 1989, Rob Burkett launched Burkett's Pool Plastering with three employees and his wife Dianne, running the home office. Today, we've grown to more than 200 employees who are dedicated to creating your ultimate backyard environment. When it comes to pool renovation and resurfacing, we're here to exceed your expectations. With competitive pricing and crews that take pride in their work, we treat your family like our family.

Let us help you begin the discovery  
of your new backyard today!

Call today! (800) 517-3115 or visit [www.burkettspoolplastering.com](http://www.burkettspoolplastering.com)

## Pooltec - The Chlorine Shortage Solution

Pooltec® 3-in-1 Algaecide - Water Clarifier - Chlorine Booster

- Reduces chlorine use by 35% to 65% and more
- Less CYA conditioner tab use, reduces CYA buildup by 1.0 ppm per tablet
- Only 4 to 8 Fl. Oz. / Weekly per 10,000 gallons

When you consider less chlorine tabs, CYA conditioner, algaecide and clarifier usage, Pooltec pays for itself.

# LEAVE SINGLE SPEED PUMPS IN THE KIDDIE POOL.

When it comes to pool pump performance, not all pumps make the cut. Pentair is clearing the water about performance to get you up to variable speed on the upcoming DOE regulation changes, so you won't be left wading.

## WHY CHOOSE PENTAIR VARIABLE SPEED PUMPS?

HIGHER PERFORMANCE

Improved circulation

ENERGY & COST SAVINGS

Cut costs by 90%-95%\*

QUIETER

Lower speed runs quieter

LONGER LASTING

Less wear & tear = longer lasting

Get the full story now at [pentair.com/pumpregulations](http://pentair.com/pumpregulations)

\*Based on a 1.5HP single speed pump (1.5HP) and a 1.5HP variable speed pump (1.5HP) at 20% speed. Actual savings may vary based on pool size, pump age, and other factors. See [pentair.com/pumpregulations](http://pentair.com/pumpregulations) for more details.

2021 DEPARTMENT OF ENERGY POOL PUMP REGULATION CHANGE

# SCOREMORE REWARDS

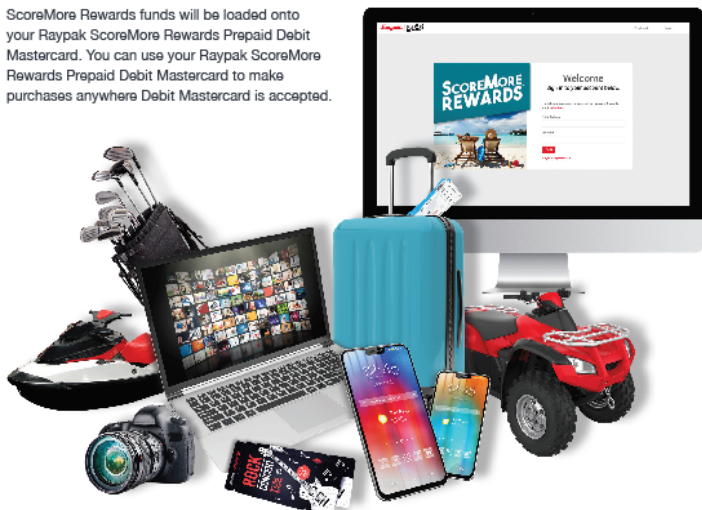

## MISSION:

To provide the pool heater industry's best rewards to Partners who demonstrate loyalty to Raypak and dedication to their customers by purchasing and installing eligible Raypak/Rheem heating products.

## PROGRAM DESCRIPTION

Welcome to Raypak's ScoreMore Rewards the program designed to reward you! ScoreMore Rewards offers our partners exclusive opportunities to earn cash back for every eligible Raypak/Rheem product purchase, as well as for participating in qualified professional training and special promotions.

ScoreMore Rewards funds will be loaded onto your Raypak ScoreMore Rewards Prepaid Debit Mastercard. You can use your Raypak ScoreMore Rewards Prepaid Debit Mastercard to make purchases anywhere Debit Mastercard is accepted.

# DESIGNED TO REWARD YOU

## STEP 1

### ENROLLING IS EASY

Go to [RaypakScoreMoreRewards.com](http://RaypakScoreMoreRewards.com) and select the red "click here" hyperlink to complete the enrollment form. As a ScoreMore Rewards member, you'll earn cash back for each eligible pool and spa heating product you install throughout the year. It's easier than ever to earn, track, and reward yourself with every purchase.

## STEP 2

### INSTALL & REGISTER ELIGIBLE PRODUCTS

A list of eligible pool and spa heating products is available in the Resources section of this guide. Please review to confirm your Raypak/Rheem heating product purchases are eligible for ScoreMore Rewards earnings.

To submit a claim go to the Promotions page at [RaypakScoreMoreRewards.com](http://RaypakScoreMoreRewards.com). From here, you will enter the Invoice Number, Sales Date, Serial Number, and upload Invoice. Then, just click submit.

If successful, A confirmation window will let you know your claim has been received and is under review.

## STEP 3

### TRACK PRODUCT REGISTRATIONS & DEBIT CARD BALANCE

▶ Login to [RaypakScoreMoreRewards.com](http://RaypakScoreMoreRewards.com) to view your cash back balance award and funding history.

▶ Use partial or all of earned cash back rewards funds on one or more purchases.

Tracking Your Earned Cash Awards

You can view your product registration history and award and funding history anytime at: [RaypakScoreMoreRewards.com](http://RaypakScoreMoreRewards.com) or the Raypak ScoreMore Rewards App.

BRONZE LEVEL  
0-25 Units purchased

SILVER LEVEL  
26-50 Units purchased

GOLD LEVEL  
51-100 Units purchased

PLATINUM LEVEL  
101+ Units purchased

Learn more at [raypakscoremorerewards.com](http://raypakscoremorerewards.com)

PURCHASE BETWEEN  
May 18, 2021 - September 6, 2021

## SUMMER REBATES

Polaris EPIC™ B640  
GET A \$75 REBATE

Polaris ALPHA™ IQ+  
GET A \$100 REBATE

Polaris Quattro® Sport  
GET A \$150 REBATE  
BONUS \$50 when purchased with PB45Q® booster pump.

Polaris 3900 Sport  
GET A \$150 REBATE  
BONUS \$50 when purchased with PB45Q® booster pump.

SAVE UP TO **\$150**  
ON POLARIS CLEANERS

Offer applies only to Polaris ALPHA™ IQ+, Polaris ALPHA™ IQ, Polaris EPIC™ B642 IQ, Polaris EPIC™ B640, and Polaris EPIC™ B520, Polaris Quattro® Sport, Polaris 3900 Sport, Polaris PB45Q™; terms and conditions apply.

## SunUp - Swimming Pool Solar

- The SunUp panel is manufactured by UMA Solar, the # 1 manufacturer of swimming pool solar panels in the world!
- Designed to resist hurricane force winds
- One piece "over molded" construction of the header and tubes eliminates welds and leaks
- Patented individual tube design allows for expansion and contraction, eliminating cracks and leaks
- Innovative mounting hardware eliminates the need for rubber hoses, metal clamps and multiple straps across the panel which will reduce the number of roof penetrations
