CAPITAL VALLEY IPSSA CHAPTER

Water Watcher

JUNE 2022

Featured Speaker for June...

Capital Valley welcomes our newest chapter supporter - Leak Detectives. Gary Gallion established Leak Detectives in 2004 and has been providing the best customer experience for the greater Sacramento areas.

Gary utilizes the most modern methods of leak detection and repair and can do underwater inspection and repair, saving the considerable cost of draining and refilling an in-ground pool. Gary is fully licensed and carries all necessary insurance.

Gary will bring some of his equipment and will demonstrate what is involved in testing for leaks.

Leak Detectives Guarantees:

1. They will find the leak!
2. They will supply a written test report showing what was tested and what the results are. They can also make recommendations for repair and supply a written estimate of costs.
3. Their major repairs are guaranteed for one year from the completion date.

Gary will bring dinner too.

Thank You Chapter Members and Supporters for making the May Table Top a success!

Because of your support, our chapter is able to donate \$1,500 to the local YMCA Youth Swim program.

DECK-O-SEAL® Polysulfide-Based Joint Sealant

DECK-O-SEAL two-part, polysulfide-based joint sealant is a premium-grade, pourable, self-leveling sealant. It is a non-staining sealant that cures at an ambient temperature to a firm, flexible, tear-resistant rubber. DECK-O-SEAL is highly resilient and has excellent recovery characteristics after extended periods of compression or elongation. DECK-O-SEAL is resistance to most chemicals, to all weather conditions, aging, and shrinkage.

DECK-O-SEAL is used for caulking and sealing joints subject to movement to provide a firm, flexible, weather-tight seal. It is ideal for sealing joints on swimming pool decks. It is applicable for interior and exterior use.

- Highly resilient with excellent recovery characteristics.
- Provides a uniform, watertight seal.
- Prevents uncontrolled cracking by allowing expansion and contraction during temperature changes.
- Stays flexible... won't become brittle or crack due to ultraviolet exposure.
- Resists abrasion, weathering, and moisture... elevated temperatures will not cause discoloration.
- Not affected by today's pool chemicals.
- Retains joint soundness in service once it's cured and can be stretched or compressed up to 25%
